

Hygiene Assessment

(short version)

regarding compliance with the hygienic requirements
in accordance with DIN 1946-4 (12/2008) and VDI 6022
(07/2011)

by SAIVER SRL Via M. da Besozzo, 16
20900 Monza (MB) – Italy
and
Via Piave, 156
20874 Busnago (MB) - Italy

OBJECT OF THE ASSESSMENT

By order of Saiver SRL, Monza, an assessment was created, in which compliance of the air conditioners of the A1-Series with the hygienic requirements according to DIN 1946-4 and VDI 6022 was checked.

The modules of the series in question were inspected at the facility of Saiver SRL in Monza or Busnago respectively to create this assessment, and data sheets, technical documentation, test reports, and assessments were inspected and evaluated.

SUMMARY

The inspection of the components listed above and the checking of the documentation listed above regarding the air conditioning components of Saiver SRL, Monza, proved that the hygienic requirements of DIN 1946-4 and VDI 6022 can be complied with by the components of the A1-Series also manufactured under YORK brand series YMA.

The detailed information of the assessment in its long version is definitive.
